Why Rent a Villa on Your Next Caribbean Vacation?

A trip to the Caribbean can be expensive, especially if you are planning an extended stay and personally, the longer the stay, the better!

Depending on which island you choose, hotels can be limited, small and expensive. Many people decide to rent a villa for the extra space. This can be particularly important if you are travelling with extended family and want to stay connected with some shared living spaces, while having the privacy of more spacious bedrooms.

Villas often also have amenities such as private pools, maid or cook services, and then a majority of villas come with gorgeous views.

Villas run the gamut from inexpensive to the more lavish, and almost everyone can find one in their price range, location and level of amenities desired.

The eBook reviews a number of popular portal websites for villa rentals. Here you will find a description of each site, as well as notable features for each.

Caribbean vacation rentals are private residences rented exclusively to you and your guests for your enjoyment, making the Caribbean rental villa life unlike any other luxury travel experience. Many villa rentals offer private pools, fantastic beachfront locations, and even a personal staff to ensure that your holiday remains carefree. Villa rentals are designed specifically to create an environment suited for rest and relaxation, but they may also be used for entertaining or celebrating that special occasion. Common areas at Caribbean rentals are spacious and airy, and often feature large windows to take advantage of the bright tropical sunshine. Many Caribbean vacation rentals also have furnishings custom-designed to suit their decorative theme, and are appointed with a close attention to detail. Elegant indoor spaces extend seamlessly to eating and lounging terraces at deluxe Caribbean rentals, creating additional living spaces for you to enjoy. Manicured grounds, often including lush tropical greenery and fragrant gardens, surround villa rentals and act as an added measure of seclusion to your already intimate property. Every room and window at Caribbean vacation rentals is tailored to maximize the views of sky and sea. With settings like these, guests of a Caribbean rental villa can't help but let their worries drift out to sea with the changing tides.
